  - Tools: Git, Postman, Socket.IO, VPS Management (Nginx, PM2, & Github Actions)
  - Soft Skills: Leadership, Problem-solving, Collaboration
- 

## Professional Experience

Senior Web Developer

Desired Technology (Jan 2023 - Nov 2024)

- **Job Bank** Platform: Designed and developed an **AI-based platform** for creating quizzes, interview questions, and resumes using Next.js and PHP. Integrated subscription-based services, enhancing user engagement.
- Spearheaded development of "**Medipedia**," a platform for medical students, using Next.js and PHP.
- **Automove** Platform: Delivered a dispatch solution for the trucking firm, including user-friendly admin dashboards and call center interfaces with React and PHP.
- **Office Orbit & Expense Wallet**: Developed robust backends using Laravel and PHP for company apps, streamlining internal expense and project management processes.
- **Interact Immigration** Platform: Handled platform maintenance, implementing optimizations to improve efficiency and scalability.

Web Development Intern

TATECHWORLD (Apr 2021 - Jan 2023)

- Completed a web development course and applied learned skills during an internship at TATECHWORLD.
- Designed and launched the Majestic Distribution Limited platform:
  - A one-stop shop for fresh fruits and vegetables, enabling national and international bookings for doorstep delivery.
  - Technologies: Laravel (Backend), Bootstrap (Frontend).
- Gained hands-on experience in building user-friendly interfaces and implementing efficient backend solutions.
- Enhanced skills in HTML, CSS, Bootstrap, PHP, and Laravel through real-world projects.

## Projects Section

1. Job Bank
    - **AI-driven web application** for generating quizzes, interview questions, and resumes.
    - Technologies: Next.js, PHP, and a subscription-based business model.
  2. Automove
    - Created a dispatch and logistics platform for Desired Technology, streamlining **bookings and delivery operations**.
    - Technologies: React, Bootstrap (Frontend), PHP (Backend).
  3. Office Orbit & Expense Wallet
    - Designed Laravel/PHP **backends for mobile apps** to track company expenses and internal project workflows efficiently.
  4. Interact Immigration
    - Improved and maintained a platform to simplify immigration-related services, optimizing both front-end and back-end workflows.
  5. Medipedia
    - Built an **MCQs web app** for Desired Technology's medical student firm.
    - Technologies: React (Next.js), Bootstrap UI, NextAuth, PHP.
  6. Majestic Distribution
    - PHP Bootstrap solution for effortless national bookings and international syndicate deliveries of fresh fruits and vegetables.
  7. Jumbo Cash
    - Tailored a Laravel Bootstrap **script from CodeCanyon**, enabling multiple plans, daily profits, and a custom referral system for online earning.
  8. Skill Alfa Institute
    - Explore Skill Alfa: Main site built with Laravel & React for course browsing; admin side, Skill Alfa Hub, made with Laravel & Bootstrap, ensuring seamless learning.
  9. E-commerce Platform (Josam)
    - Built a robust online store using **Node.js, Express.js, React.js, and Next.js**, featuring custom API integration and advanced search functionality.
    - The project included four distinct panels: three web-based (**admin, vendor, customer**) and one mobile app (**Driver**).
- 

## Education

1. Matric
    - The Educators
  2. Intermediate
    - Punjab Group of Colleges
  3. B.Sc. Software Engineering
    - Arid Agriculture University
- 

## Achievements

### ETL Online Ambassador

- Inspired growth, encouraged participation in ETL courses, and promoted lifelong learning for collective success.

### Startup Idea Selected in PITB

- Successfully pitched and got recognition for an innovative startup idea under the Punjab Information Technology Board (PITB) program, showcasing entrepreneurial skills and creativity.
- 

## Aspiring DevOps Enthusiast

Passionate about exploring new technologies and expanding my skill set. Currently focused on DevOps, mastering CI/CD pipelines, containerization, and cloud infrastructure to create scalable solutions.
